

GymOps LLC

Home Page

The Home Page introduces the Gym Management System and explains its purpose. It provides navigation links to Register, Login, Membership Plans, and the Member or Admin Dashboards.

About Us:

GymOps Gym Management System is a web-based platform designed to help gym owners manage their memberships, track payments, and monitor member activity efficiently. Our mission is to provide a simple, organized, and secure system that reduces administrative work and improves the overall management of gym operations.

With GymOps, gym owners can maintain accurate records, view membership statuses, and keep track of payments — all in one centralized platform. This system empowers gyms to focus on helping their members stay fit while the administrative side runs smoothly in the background.

Register Page

The Register Page allows new users to create an account by entering their name, email, and password. Submitted information is securely stored in the database.

Login Page

The Login Page authenticates users and directs them to the appropriate dashboard based on their role, either Member or Admin.

Membership Plans Page

The Membership Plans Page: displays all available gym membership options, including the plan name, duration, and price. Members can review and select a plan.

The Join Membership Page: enables members to activate a membership plan. The system calculates the start and end dates and records the selection in the database.

Membership Dashboard

The Membership Dashboard provides members with an overview of their account. It displays active membership details, expiration dates, and payment history.

Admin Dashboard

- View Members
- Manage Members
- View Payments

Logout Page

The Logout Page securely ends the user session and redirects the user back to the Home Page.
